Behavioral Health Practice Visits

Community Health Partners

In an effort to provide primary care providers with the support needed to better manage patients with behavioral health and/or substance abuse issues, Community Health Partners offers practice visits by our network psychiatrist, **Karen Melendez, MD** and our behavioral health coordinator, **Anne Wheeler, RN, BSN, CCM**.

If your practice would like to arrange a visit, please select the topics that would be of most value to your practice and **fax** this completed form to **Anne Wheeler @ 704-865-4614**.

- Behavioral health resources and referrals
- Management of depression including antidepressants, using the PHQ9 screening tool, algorithms of care, the CCNC Depression Tool Kit
- Management of ADHD including screening tools, medications, and algorithms of care
- Integrated health care models
- Open discussion on the barriers your practice faces in managing patients with behavioral health and/or substance abuse needs; outside resources and referrals
- Other: _____
